

Below you will see a general list of supplies that teachers are requesting for this school year. Students will not have every teacher. They need to compare their schedule to this list in order to see what they may need. Class schedules were handed out during JumpStart week and can also be found through Tyler (our grading portal).

When students begin rotating through their daily schedules, they will receive a syllabus with more detailed information on items that may be needed. Please email the teacher in question or admin with any questions you may have. If you are having trouble picking up needed supplies, please contact us at Mia.Valdez@datacharter.org and let us know what assistance you may need.
