## What's SAC ~ working on? ~

### What does SAC do?

SAC, or Student Advisory Council, is a group of students working to address student concerns, plan school events, organize fundraisers, and more! If you'd like to get in touch with us, find our Suggestion Box in the lobby, or come meet with us during our open lunch meetings.

### What About the Bathrooms???

We're upset about them too! We don't have much to share right now, but we're working with Admin to find a solution. We'll share more as soon as we can.

### What's the Suggestion Box For?

SAC's Suggestion Box is a new way to get in touch with SAC! We've already gotten a lot of notes in since the first day we had it out, and we're working on addressing the concerns shared in it!

### Future Events?

Yep! We're hoping that next semester we might be able to host events like talent shows, art shows, film festivals and more! If you've got ideas, send them in!

## Who is ~ SAC? ~

### Our representatives:

#### 12th grade:

- Kaytlyn Buksas
- Luis Ricarte

#### 11th grade:

- Alex Fuchs
- George Perkins

#### 10th grade:

- Adam Anderson

#### 9th-7th grade:

- Cetti Behrens
- Gabriela Eichwald
- Lyla Maldonado

## Important ~ Dates ~

Our next open meeting is

**December 8th!**

Come meet us in Mr. McHaley's room for the first half of lunch.

# The Council

## ~ Student Submissions! ~

We want to see your work! If you have something to share, send it in the [#newsletter-submissions](#) channel in the Dragon Lair! It can be art, photography, comics, writing, or any other creative work. In particular, we would love to include an ongoing comics section, so if you've got some, please send them in!

Kaytlyn Buksas - Digital

Cetti Behrens - Graphite

Alex Fuchs - Photography

## Gracie ~ Fact ~

Pistachios have a high fat content, (around 45% of the nut) and the fat is highly flammable in some situations. Because of this, if an abundant amount of pistachios are packed densely enough, the oils in them can self heat and **SPONTANEOUSLY COMBUST!**

# The Council
