

DATA SCHOOL SUPPLY LIST 2026-27

Hello DATA families,

Below you will see a general list of supplies that your student will need for their classes. These supplies will meet the needs of most teachers. If there is something specific or unique a student may need, their teacher will inform them the first day of class. If your family needs any support to get any of these items, please reach out.

As a reminder, we do not have lockers at school so a backpack is essential. Also, we have spectacular water fountains that deliver the best tasting water ever, so please, purchase a water bottle for your student. We purchased these fountains to increase the health and hydration of your students, while also eliminating plastic waste.

Thank you and look forward to seeing you all very soon!
